

## **Brownfields 2017 Cleanup Grant Fact Sheet**

### **Estill County 21st Century Inc., KY**

#### **EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

#### **Cleanup Grant**

*\$200,000 for hazardous substances*

EPA has selected Estill County 21st Century Inc. for a brownfields cleanup grant. Hazardous substances grant funds will be used to clean up the Mack Theater at 114 Main Street in Irvine. The cleanup site formerly operated as a livery, steam laundry, garage, and a movie theater. The site is contaminated with metals, solvent organic compounds, and inorganic contaminants. Grant funds also will be used to support community involvement activities.
